

1. What are the main differences between an IF Statement and a Switch Case, with an example for each? (Mention at least 3 differences). (15 Points)

2. What is the main difference between Do-While and For Loops, with an example for each? (10 Points)

3. What are the primitive data types in C++? (Mention at least 5 types) (10 Points)

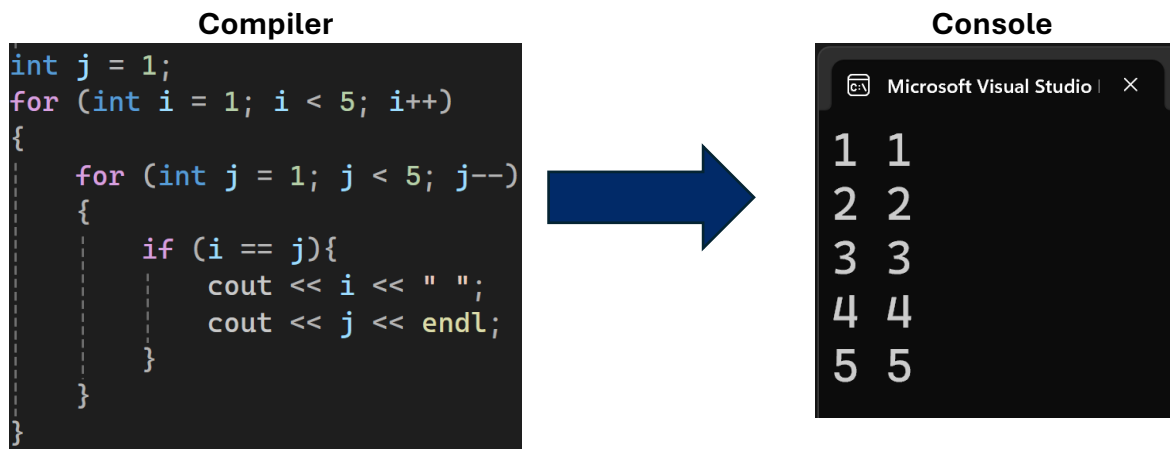

4. Write a Function that takes an Integer Array and returns the Average of its elements. Then, call it in the "Main" function. (15 Points)

5. Write a Function that takes 3 Integers and returns the maximum value. Then, call it in the "Main" function. (10 Points)

6. Write a Function that takes 2 Integers and Swaps them Using Pointers. Then, call it in the "Main" function. (15 Points)

7. Without copying the following code on a compiler, Fix the issues in the code to make it print the following output correctly. Then, write the fixed code.

(10 Points)

8. Without copying the following code on a compiler, Draw the expected Pattern of “*” that will be printed from the code:

(15 Points)

```
int num = 5;
for (int i = 1; i <= num; i++)
{
    for (int j = 1; j <= num; j++)
    {
        if(j == 1 || j == i || i == num){
            cout << "*" << " ";
        }
        else {
            cout << "  ";
        }
    }
    cout << endl;
}
```

Best Wishes.
